PERFORMANCE BY STUDENTS

Pedagogical Faculty is the largest faculty of the Independent University of Banja Luka.

There are three study programs for:

- Class teacher/professor
- Teacher/professor of preschool education
- Professor of special education and rehabilitation

Education includes a lot of practical teaching and independent student work.

International cooperation and the international experience of teachers are of great help and it is the basis of quality of knowledge conveyed to students

Modern cabinets, computers, a library and reading room are an integral part of student activities.

Students attend acting classes, sports, debates and environmental workshops.

Faculty has signed agreements with suitable institutions where students are regularly performing the practice.

Study programs are continuously upgraded and contemporary trends in teaching and pedagogical education are followed.

Faculty currently has more than 250 students.

- ▶ PERFORMING VARIOUS SOCIAL AND ECONOMIC RESEARCH WORK
