during the Seminar will be successfully realised. She also pointed out that they are proud that the Faculty is part of a European project.

After introductory address, representatives of University of Alba Iulia - Teodora Iordachescu and Grigore Dan Iordachescu, briefly presented the work activities that will be realized during the two-day TOT Seminar.

After the introductory part, the TOT leaders of the seminar briefly presented the activities that were done at the first TOT seminar. They talked about transversal competences - with an emphasis on the development of critical and innovative thinking (Creativity, entrepreneurship, resourfulness, application skills, reflective thinking, reasoned decision making)-

The second TOT seminar started with presentation of intrapersonal skills – (self- awareness, self-disciplineability to learn independently, flexibility and adaptability, perserverance and self-motivation, compassion, integrity and self-respect). Participants were given the task to discuss about the values - what are the values - the definition, which values are the most important for them and so on.

The second task for the participants was to identify their feelings. Participants needed to choose one feeling from each of four categories – Sad, happy, angry, and scared – and to draw a face showing that feeling. After the task was done, there was a short break for coffie. After the break, discussion about intrapersonal skills followed. After the activities were completed, the leaders TOT seminar presented the rooms of thearea of the Faculty.

At 2 pm there was a break for lunch- and short recapitulation of the first day.

Day 2 – Wednesday 21th March 2018

All the participants met at the university at 9:00, and the leaders gave instructions for visiting the kindergarten „Gradinita“. In order to improve the professional competencies of teaching staff, experts from the University of Alba Iulia organized various activities.

Activities involved exchange of professional experiences between partners, participants had the opportunity to visit the kindergarten rooms, see the methods that teachers use in their work with children, find out about the projects that the kindergarten successfully implemented, to talk with children and educators and see some of the modes that educators use to work with children. One of the goals of the visit was the presentation of the situation
