## Wish to improve?

80 odgovora

## 41. I CAN MANAGE TASK-BASED ACTIVITIES (RESOURCES, STRATEGIES, REMEDIAL ACTION, READJUSTMENT)

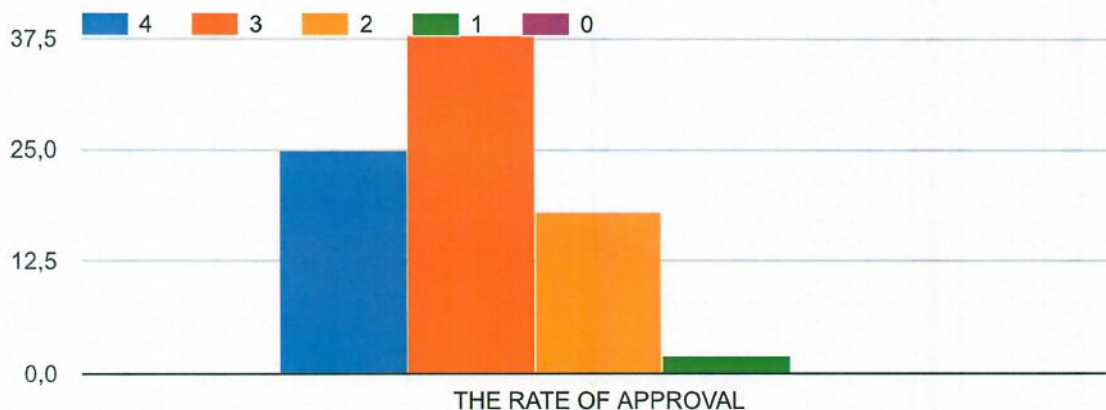

## Wish to improve?

79 odgovora

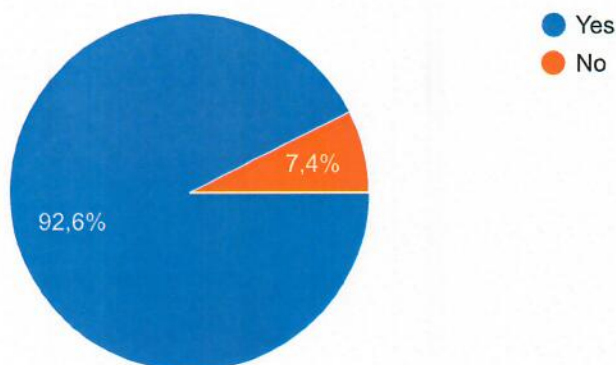

## 42. I CAN ORGANIZE COMMUNITY LEARNING ACTIVITIES INVOLVING ALL STAKEHOLDERS (CHILDREN, PARENTS, LOCAL COMMUNITY REPRESENTATIVES, ETC)

## Wish to improve?

81 odgovor

## Dear respondent, please specify your expectation from methodological and didactics seminars

22 odgovora

I would like to have opportunity to: a) think through concepts and needs of pre-school education (in B&H), b) develop skills that will help me choose adequate instruments and tools, for different tasks, and c) learn from concrete experience of others. Thank you.

I expect to improve my skills in all fields, because there is always more to learn. I hope to learn a lot in these seminars.

To confirm all my competences in those fields and through new experience and methods to improve my skills

I expect to improve all skills I need to work with all groups (children, parents, other associate partners..) of people.

As a professor of didactics and methods of pre-school education, I am familiar with the work in preschool upbringing. From seminars I expect some novelties that we can use in pre-school education to advance our work.

To improve the abilities and the skills for better understanding and applying of the national curriculum in practice

I would like to develop the ability to prevent and remedy child' socio-pathological phenomena and behavioral disorders

Everything was in high level.

The discovery of new methods of work and access to children and the dissemination of knowledge about the importance of child education

Da prenesu kakvo je pravo stanje u ustanovama za predškolski odgoj

Očekujem stjecanje novih spoznaja o suvremenim naučnim dostignućima u oblasti didaktike i metodologije, kao i upoznavanje s iskustvima drugih odbojno -obrazovnih sustava u dijelu metodoloških i didaktičkih dostignuća.

I hope to learn more about "How to organize community learning activities involving all stakeholders" and "How to manage task-based activities".

Exchange and application of new applicable knowledge in pre-school education

I expect proposals for new methods that will bring improvements in the teaching process at preschool age...

I hope that the seminars will contribute to the improvement of teaching practice in pre-school education and that new methods, techniques and methods will be found that will contribute to the more creative work of teachers and children.

More knowledge and more practice

Continuity and sustainability

I expect from these seminars to help us to improve our teaching skills, and understandings of children needs.

Improving personal skills and working methods for preeschool education, new experiences and knowledge and improving the work organization in preschool education.

New experiences and knowledge.

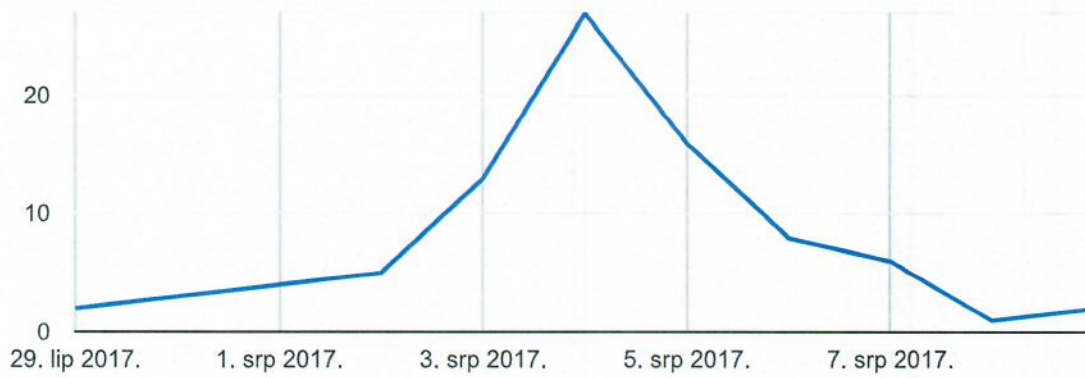

Super

When it comes to seminars, with thematic methodology and didactics, it can be concluded that getting new information about the problem is extremely important! Interpersonal communication between pedagogical experts, especially those of external science who have an influence on pedagogical science. Only personal publishing of scientific papers and observation of other scientific achievements presented at seminars can provide a basis for training and ideas for new ventures.

Thank you for your answers and cooperation. ▾
